----	--------	------	-------	-----	--------	----------	-----	-------	-------	-------	-------	-------	-------	-------	-------------	---	--

Mandatory equipment for single cab:

Code	Description	Comment
Long	Wheel base 4.490 mm	necessary because of construction.
	Variant Crafter 50 (twin tyres)	
1D7	Trailer hitch preparation	Important because of the highest possible GTW.
NY4	AGM battery (92 Ah, 520 A) and alternator with increased capacity (250 A)	
8FG	2nd Battery deep cycle with cutoff relay	Because of winch and electrical supply.
IS1	Electrical clamping strip	IS2 is also possible.
3AQ / 3BL	Under-wing mirror	Body width 2160 – 2400mm.
6S3	Position lights	Mandatory for vehicles with width > 2,1m.
8F1	Side marker lights	Mandatory for vehicles with length > 6m.
2NC	2 chocks	Manadatory for N2 vehicles.

Recommended equipment single cab:

Code	Description	Comment
ZR8	Spare wheel	Incl. lifting jack and vehicle tool kit
ZHF	Rear window, incl inside mirror	
3TP	Suspended seat ergoComfort in cab, on the left	
3SS	Passengers double seat bank	
VG1	All-season tyres	

Equipment that may not be ordered with single cab:

Code	Description	Comment

Suspension variants:

Airsuspension – FF558190 (Option)
- Conversion from leaf to full air suspension
- For low loading height and drive-up angle
- VB air suspension
- Weight approx. 15 kg
